

AN URGENT MESSAGE
FOR AGRICULTURE:

Defend ETHANOL.
Defend AGRICULTURE.
Defend AMERICA.

TELL THE EPA TO APPROVE A
5 PERCENT INCREASE IN OUR
COUNTRY'S GAS-ETHANOL BLEND

AMERICAN AGRICULTURE NEEDS YOUR VOICE.

You know what ethanol has done for agriculture. But this progress could crash to a halt – unless you speak up. We need your help today to tell the EPA just how vital ethanol is to our economy, our environment, our families and our future.

JOIN THE FIGHT FOR ETHANOL.

On March 6, the ethanol industry asked the EPA to increase the amount of ethanol in our gasoline up to 15 percent – a blend called E15. The move will create more than 136,000 new green-collar jobs and generate \$24.4 billion for the U.S. economy – much of it in the area where you live. But none of this will happen without your help. Please don't delay. Submit your comments to the EPA today on the benefits of ethanol.

HERE'S WHAT TO DO.

GO ONLINE: *Simply visit **GoE15.com** and fill out our easy-to-use online form. Share your reasons for supporting ethanol.*

Or you can contact the EPA yourself through:

EMAIL: a-and-r-docket@epa.gov

MAIL: *(must include two copies)*
Air and Radiation Docket
Docket ID No. EPA-HQ-OAR-2009-0211
Environmental Protection Agency
Mailcode: 6102T
1200 Pennsylvania Avenue, NW
Washington, DC 20460

Take action now and tell the EPA
that ethanol is more than a fuel.
It's a solution. Join us at GoE15.com.
